### **DETAILED ACTION**

#### ***Request for Continued Examination***

1. The request filed on 5/27/2008 for a Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 10/523408 is acceptable and a CPA has been established. An action on the CPA is attached.

#### ***Allowable Subject Matter***

2. This application is in condition for allowance except for the following formal matters:  
New drawings are required, as explained in paragraph 3 below.

Prosecution on the merits is closed in accordance with the practice under *Ex parte* Quayle, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

#### ***Drawings***

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the claimed "first rotary carousel" and "second rotary carousel", along with all the claimed elements attached to them ("slide units", "nozzles", "seats", "vacuum means") must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

The objection to the drawings will not be held in abeyance.

***Response to Arguments***

4. Applicant's arguments filed 5/27/2008 have been fully considered and are persuasive.

***Reasons for Allowance***

5. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a capsule filling machine comprising a first rotary carousel supporting slide units for picking up and handling capsules, a second rotary carousel supporting hollow nozzles for picking up and holding granular material, the nozzles movable between a position for picking up the granular material by vacuum, and a position for depositing the granular material into the respective capsule.

The most pertinent prior art, JOHNSTON ET AL, discloses a capsule filling machine with a plurality of reciprocating dosers mounted on a rotating carousel, the doser means operative between a first position in which the doser picks up particulate matter and second position in which the doser transfers the particulate matter into capsules. However, JOHNSTON ET AL does not disclose the doser means on a first carousel and the capsules held and moved on a second carousel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
